

OFFICE OF LAWYER REGULATION

110 East Main Street, Suite 315
Madison, Wisconsin 53703-3383

Dear Staff;

February 10, 2012

I am not writing you as a first time inquirer of your agency. I suppose some of you might know me from before. Also, I am not expecting a miracle of a change in procedures and an actual investigation of whether my claims are true. From experience of the past, it did not matter how much proof I had, or how severe the accusations were. It seemed that regardless what violations the attorney did, your agency would dismiss the charges. It is discouraging for a citizen of the United States to be wronged by an individual in the judicial arena, and then not find one source or agency that will correct the wrong inflicted. In depression the victim assumes that there must be a hidden money trail that must be protected at all cost. Sure, these are just assumptions, but we will see if there is any truth in it by trying this one more time.

In this letter of accusation and Complaint, I am enclosing a (Complaint/lawsuit) that has been rejected by the federal court which stated that Tommy is NOT a government employee so therefore, I have brought a lawsuit against him that is filed improperly with the wrong Statute. That statute might work for suing people working in your agency, but it does not apply to an attorney working his private business. In the dismissal order, the deciding judge stated that she was not able to do anything but that your agency is the proper agency to contact. Therefore, I am informing you of the vindictive and blatant lies that Attorney Anderson did in the courtroom and directly to the judge.

I could supply the transcript when I finally receive it from the reporter (which is already paid for). However, I believe that even though Mr. Anderson violated his Oath and the ABA & SCR rules, this complaint will be rejected and nothing will happen to Anderson. From my experience, I believe lawyers can deliberately lie to the judge (as it has happened now) and if there is some hidden mystery involved, NOTHING WILL HAPPEN besides I would be getting another rejection letter. If my suspicion of conspiracy is true again, I believe more surely than ever that my suspicions are correct. There never will be any crime short of murder that Anderson could do that would bring reproof upon him.

I am sorry about feeling this way and for believing it to be true, but the outcome of this letter will either confirm it, or I will need to apologize that I was wrong. I would rather apologize and know that there is an agency that DOES punish when wrong has been committed.

Sincerely yours, _____
